

“World Zoo” App for iPhone and iPad is now available for FREE download exclusively in the Apple App Store!

***DOWNLOAD NOW OVER WI-FI!**

This app gives children the ability to introduce their language and accents to each other both in and out of the classroom. With World Zoo, every child's native language is important and all language borders are broken down by saying the names of common animals in every nation's official language which will eventually number over 300 (World Zoo currently has 61 languages).

Stunning Artwork!

Over 60 Languages!

Record your Voice!

- * See and hear the names of 35 animals translated into over 60 languages and accents. No one on the App store has ever done this before! The list of languages and accents is always growing!
- * Record and Share your language with the world! You and your parents can donate your voice to the app and then be heard all over the world in every downloaded app through the App Store.
- * Seamlessly learn about world geography as well as languages through multiple interactive maps.
- * Test your knowledge of geography with a country flag quiz. Coloring Book coming Soon!
- * Learn how to say hello in multiple languages.
- * All official languages of EVERY NATION ON THE PLANET are welcome. You read that right. ALL OF THEM! We have rare, unique and endangered languages from Aruba, Iceland, Greenland, The Kaw Nation, Malta and Madagascar (just to name a few).
- * The text of World Zoo has been personally translated into 13 major world languages!
